**—根拠と論争—**

***Welfare Regimes, Policies, Politics and Health:  
Evidences and Controversies***

**報告者(Presenter) : Haejoo CHUNG**

**Profile**

Haejoo Chung is Associate Professor of Health Policy & Chair, Department of Healthcare Management, College of Health Sciences, Korea University. Her research centers around welfare state regimes, labour markets and other social policies' impact on health. She is also involved in global pharmaceutical policy research.

**コメンテーター(Comment) : Junri SAKURAI (産業社会学部 教授)**

**司 会(Moderator) : Ryozo MATSUDA (産業社会学部 教授)**

\* 使用言語 : 英語 (Seminar conducted in English)

**Message from Presenter**

There has been a growing interest in “social determinants of health” research in the field of public health. Likewise, more and more researchers understand tackling a wide range of public policies is important for the promotion of population health. In this seminar, Dr. Chung will review recent evidences and controversies regarding welfare regimes, policies, and politics and health, and provide suggestions for further academic investigation as well health policy practice for the intersectoral collaboration for health promotion.
